

## AC Pro 96% Two Stage Variable Furnace

### AC PRO MAKES CHOOSING THE RIGHT FURNACE THE SIMPLEST CHOICE OF ALL

A furnace can do more than make you feel comfortable. It can also make you feel confident. AC Pro builds every furnace to deliver on both counts. From rugged construction to energy efficiency to fast installation, it's the right choice to make every time.

### INSIDE THE DESIGN OF AN AC PRO A962V FURNACE

#### EHX™ Technology

Engineered and built with EHX Technology, a patented design that eliminates the hot spots that can shorten furnace life. EHX Technology makes heat exchangers more durable, and with its advanced airflow system, more air contacts the heat exchanger surface area for greater heat exchange, enhancing efficiency and comfort.

#### Two-Stage Heating

Rather than being "all on" or "all off", your furnace can adjust its heat output based on conditions inside and outside your home. So you use less energy to maintain comfort.

#### Quiet Combustion™ Technology

Uses a smaller BTU input per burner for quieter start-up and operation while providing more even heat distribution

#### Comfort Sync®

The Comfort Sync thermostat offers technologically advanced management of your HVAC system. From remote access via smartphone, tablet or laptop to live weather forecasts to an energy-saving One-Touch Away mode, you'll enjoy more control and greater energy savings with just a few touches.

#### Variable-Speed Blower

By changing the speed of airflow during startup, your furnace can adjust humidity levels and create more even temperatures throughout your home, while enhancing efficiency and reducing operating noise.

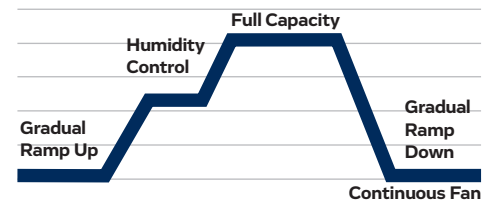

#### Efficiency

Variable-speed technology and a high-efficiency blower combine with an efficiency rating of 96% AFUE to save you hundreds of dollars a year on your utility bills.

#### Dual-Fuel

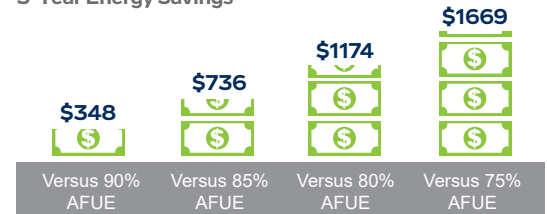

This combination of gas furnace and an electric heat pump pairs two energy sources for the perfect balance of energy efficiency and comfort.

#### Variable Blower Speed Operation

Gradual ramp up and down of the variable-speed motor significantly reduced

#### 5-Year Energy Savings\*\*

Savings versus less-efficient AFUE units

\*\* Savings vary depending on use, geography lifestyle, maintenance, installation and other factors
